EIGHTH MONTHLY PROGRESS REPORT

IMAGE QUALITY METER  
17 January through 17 February 1961

STATINTL

The Image Quality Meter cabinet was received during the reporting period. Installation has started as components have become available.

The first model of the rocking mirror scanner is nearing completion and will be running soon.

Also during the reporting period the program funds were exhausted, but the [REDACTED] has assumed all of the overrun costs and work is proceeding unimpaired.

The Quarterly report is being prepared and published and will be ready for distribution.
